# Working & studying

Life at WITT isn't all hard work, however, learning in a second language, learning new concepts and new ideas can be tiring.

It's good to balance your learning with plenty of fun and that's why we organise activities to encourage you to mingle with other students and to experience kiwi life.

The main purpose of a student visa is to allow international students to study full-time in New Zealand.

Many students find part-time employment in the hospitality and service industries including restaurants, bars and supermarkets. In New Zealand there are laws to protect our workers.
